To Dianne Bagrationi and employees  
of Dianne Bagrationi Charitable Foundation  
26.01.2017

Dear Dianne!

Charitable foundation "Podari zhizn" sincerely thanks you and all the employees of Dianne Bagrationi Charitable foundation for your constant help!

Lives of children struggling with hematological and oncological diseases depend not only on the qualifications of their doctors, but also on the financial support for the treatment. Medicine does not stand still: many forms of diseases that were fatal 10-15 years ago can now be successfully treated. Unfortunately, state funding for this area of medicine remains limited. Therefore, use of best medicine and therapies becomes possible only with constant support of benefactors. We sincerely thank you for your long-term support!

Events that Diana Bagrationi Foundation arranges at the Consulacy of Russian Federation in the United States, don't only become a bright cultural event, but also show dozens of people that charity can be interesting, beautiful, easy and pleasant. We are happy to know, that the upcoming concert "To Live and Remember" continues this tradition of inspiring events that show people that cancer can be cured, when we unite our efforts.

With your help children receive best medicines and support - they know that there are people thinking about them, people, ready to help. Any doctor will confirm the importance of this feeling for the successful struggle with the disease.

We thank you for your innovative approach to charity. Let this inspiration accompany you in all your activities!

Director of Charitable foundation "Podari zhizn"
