LTD M.IASHVILI CHILDREN'S CENTRAL HOSPITAL

№ 1191/12
03.09.2015

To the Diana Bagrationi Foundation,

We want to thank you for the financial support that was granted to our association. We received 950.00 USD on our account.

We used this donation for a very important medical equipment - patient monitor machine, (MEC -1200), which is necessary for Children's Oncology/Hematology Center. As you know Iashvili Children's Central Hospital is the only center in Georgia, where children with leukemia and lymphoma are treated. At this time we have 30 patients in our department suffering with this life-threatening disease, for whom the equipment will be used.

That is why your support is so crucial.

We appreciate our friendship very much and hope to continue further collaboration with your organization.

With Gratitude,

General Director
Shota Joglidze

Head of Oncology/ Hematology Department
Prof. Asmat Shengelaia

Head of Oncology/ Hematology Outpatient Department
Ph.D. Dr. Tamar Javakhadze
