

ძსნ შ.იამჭვილიძის სპ. ბავშვთა ცენტრალური საავადმყოფო
LTD M. IASHVILI CHILDREN'S CENTRAL HOSPITAL

To the Diana Bagrationi Foundation,

We are truly grateful for your dedication to helping children with leukemia for all this time. Without your help and without help of other charity organizations and government, only our effort would be unavailing.

We want to thank you for the financial support that was granted to our association.

We used this donation - 540\$ for an equipment in psychological consulting-room which is necessary for M. Iashvili Children's Central Hospital's Oncology/Hematology Center. As you know social and emotional issues are very important during and after treatment of childhood leukemia. At this time we have 28 patients in our department suffering with this life- threatening disease, for whom the equipment will be used.

We appreciated our friendship very much and hope to continue further collaboration with your organization.

With Gratitude,

Head of M. Iashvili Children's Central Hospital
Oncology/ Hematology Department
Prof. Asmat Shengelaia

Head of Oncology/ Hematology Outpatient Department
Ph.D. Dr. Tamar Javakhadze
